

CARDBOARD TUBE BIRD FEEDER

Supplies

- Cardboard tube
- Peanut butter (or other nut butter like sunflower seed butter or almond butter)
- Birdseed
- String or yarn
- Scissors
- Bamboo skewer
- Butter knife

Instructions

1. Using the scissors or a skewer, create a small hole at the top and bottom of each side of the cardboard tube.
2. Then through the top set of holes, tie one end of the string to each side.
3. Through the bottom set of holes, push the bamboo skewer through to make a resting perch for the birds.
4. Pour birdseed into a shallow dish. Using a butter knife, spread a thin layer of peanut butter over the cardboard tube. Immediately roll the tube in birdseed or press birdseed against the sides.
5. Hang your bird feeder outside on a dry day for your neighborhood birds to enjoy!
